**TARIFF DECLINES BEET SUGAR STOCK**  
European Markets Are Depressed by the Balkan War Complications.

NOTE—All market news on this page reflects closing sale prices unless buying or old be specified Monday, April 1.

New York, N. Y., April 1.—Political conditions at home and abroad were influential in shaping the course of the stock market today. The latest complications growing out of the Balkan war depressed European markets.

Renewed talk of the outlook for tariff legislation caused some apprehension here and led to a resumption of liquidation and short selling. Special factors contributed to the market's depression. Beet sugar broke on misgivings as to the effect of changes in the duty on sugar. Declines of 1 to 2 points were largely recovered by midday.

Bonds were heavy. Assembling of Congress and publication of the provisions of the tariff bill attracted speculative attention for the moment rather than stocks, and trading became stupor. Southern Pacific weakened abruptly, but the general list, after showing sympathetic heaviness, hardened again.

The market closed weak. Trading was subdued in the last 15 minutes by a vigorous selling movement, which put prices down to the lowest of the day. The delay in any announcement from Washington regarding the supreme court's action in the state rate case, furnished the bear with a pretext for raiding the market.

**HIGHER CABLES ADVANCE WHEAT**

Balkan War Situation Increases Demand For Cereals; Provisions Weak.

Chicago, Ill., April 1.—Darkening of the war cloud in Europe because of the defiance of the powers by Montenegro in its refusal to abandon the attempt to take Scutari, caused strength in wheat prices today, after an irregular opening. At the start the market was 1/4 c lower to 1/2 c higher, with May showing a gain of a shade to 1/2 c, at 91 1/2 to 92 c. Higher cables from Liverpool and most of the other foreign grain centers also helped to give strength to this market. Private houses bought largely and May advanced to 92 1/2 c.

The close was strong, with May at 92 1/2 to 93 c, a net gain of 1 1/2 c.

Active demand for corn caused a strong opening, with May 1/2 c to 1/4 c higher, at 54 1/2 to 55 c. Offerings were light and an advance to 55 1/2 c was made.

The close was firm, with May at 55 1/2 to 56 c, a net gain of 1 1/2 c, and a new high point for the season.

Commission houses buying sent May oats up to 32 1/2 c. Private houses unchanged to a shade lower, at 31 1/2 to 32 c.

General liquidation caused a weak closing in provisions, the range of opening prices being unchanged to 1/4 c lower, with May figures 11 1/2 to 11 3/4 c for pork, 11 1/2 to 11 3/4 c for lard, and 11 1/2 to 11 3/4 c for ribs.

**MONTENEGRO DEFIES EUROPEAN POWERS**

Cetinje, Montenegro, April 1.—The little kingdom of Montenegro has thrown down the gauntlet to the six great powers. She declines to yield to the demand of the powers to abandon the attempt to gain possession of Scutari and has officially announced that "there will be no departure from an attitude which conforms to the necessities of the state of war existing between the allies and Turkey."

International fleet, comprising warships of Austria-Hungary, Italy, France, Germany and Great Britain is now blockading the Montenegrin coast of Adriatic. The fleet includes four Austrian warships, the British cruiser Yarmouth, inflexible and Gloucester, the German cruiser Bremen, the Italian cruiser Pisa and the French cruiser Edgar Quinet. Russia is not represented by a warship, but has been in the naval demonstration.

**MANY CORPORATIONS RELIEVED FROM TAX**

Supreme Court Holds That Corporations Having No Income Except From Leases Are Not Doing Business.

Washington, D. C., April 1.—Hundreds of corporations will be relieved from paying the federal corporation tax by a decision today of the supreme court to the effect that corporations leasing all their property and having no income except that yielded by the lease, are not "doing business" and therefore are not subject to the tax.

The court directed that its decree in the "hard coal case" be amended to give the federal district court in eastern Pennsylvania time to decide whether certain "oil and gas" contracts should be excepted from the recent decision that such contracts were void.

The court reversed the federal court in Alaska which annulled five of the contracts of an indictment against the Pacific and Arctic Railway & Navigation company and others charged with violating the Sherman anti-trust law and interstate commerce law in regard to Alaska transportation facilities.

The state railroad cases were not decided.

There are 200 cases of measles in El Paso, 44 more than last week, and the disease has become an epidemic, according to the health authorities. The census here on the last day of last month is blamed for many cases, the authorities saying that children who should have been under quarantine, were allowed to visit it, thus communicating it to others. The authorities complain that numerous cases of measles are not reported at all, and this is tending to spread the disease.

**NEW MILEAGE PLAN IS MORE CONVENIENT**

Chairman of Corporation Commission Explains Arrangement in Detail.

Deming, N. M., April 1.—Hugh H. Williams, chairman of the state corporation commission, is here with the new mileage plan. He was asked concerning the recent action of the commission in requiring the initial reference of the corporation to the state, Mr. Williams said:

"Heretofore it has been impossible to purchase a mileage book with which anyone could do any considerable traveling in the state. It is true that the law issued such books, but they were of limited application and could be used on only two or three roads. I have been, and am still of the opinion that this worked an unnecessary hardship and inconvenience on the traveling public. If a man wanted to do any considerable traveling in the state, under the old system, he had to buy a \$25 book on the Santa Fe, a \$10 book on the Santa Fe and Southern, and a \$5 book on the Santa Fe and Southwestern. He had to buy also a \$25 book of the D. & R. G., which was good on the New Mexico Central, or else buy a \$30 book on the New Mexico Central, which was good also on the Santa Fe and Southern and the D. & R. G. In order to procure mileage good on the S. F. west of El Paso, the traveler had to have a \$30 script book. In short, in order to do any considerable amount of traveling, you had to invest about \$25 in mileage and script books. And worst of all, the traveler had to have a \$25 book on the Santa Fe and a \$10 book on the Santa Fe and Southern, and a \$5 book on the Santa Fe and Southwestern. He had to have a \$30 script book. In short, in order to do any considerable amount of traveling, you had to invest about \$25 in mileage and script books.
